BINAKOL FABRIC
Binakol hand-woven fabric is characterized by black and white color combinations with a mesmerizing 3-D “twister” pattern. Made on small width wood looms, the fabric is indigenous to the most Northern tip of the Filipino island chain. Binakol fabric is an important source of income for mostly women weavers and sewers. The weaving technique is a traditional practice that is threatened by machine-made inexpensive fabrics. Our Binakol fabric is approximately 25" wide and made of 100% polyester. There are approximately 30 yards per master roll. Cut to order by the 2 yard minimum. CANNOT GUARANTEE FULL PATTERN IS ON ENTIRE PIECE. ALL SALES FINAL. Dry clean only.

C SILK COCOON ART PANEL 
Over 800 individual, natural, undyed, gold-like silk cocoons from the Madagascar native silk moth, *Ceranchia apollina*, are sustainably harvested, pressed and sewn together with polyester thread. The moths are unharmed and released back into their natural habitat. By preserving the rainforests, instead of clear cutting for farming, this project supports farmers and helps to conserve Madagascar rainforests. Certified wildlife friendly by the Fair Trade Federation. Each panel has a natural, uneven edge. Steaming or ironing, on the silk setting, is effective. Do not machine wash.

Since acrylic can easily be scratched, care is needed when cleaning. Never use chemical sprays, solvents, ammonia glass and scouring cleaners. Simple wipe-cleaning is best. Use only a very soft damp cloth. Never use the same cloth that you clean other household items with because it can retain dirt and chemical residues. We recommend using a new or separate cloth for your acrylic care. There are products in the market that can remove some scratches on acrylic.

HANDMADE PAPER FOR YOUR WALL AND MORE!

We combine traditional techniques with contemporary Earth-conscious materials to create our handmade art paper. Our papers use recycled materials such as cardboard, newspaper, sawdust, pineapple fiber, banana fiber, and fast-growing sustainable resources such as jute and grasses into every sheet. Surface is paintable. Indoors only

Our handmade paper can be a perfect accent for your project. From straight-up wall decoration, to sculptural elements, window treatments, room dividers, and more. With care, it can even be used as wall paper. (We recommend using a clear primer over a painted wall to provide a good surface and then a pre-mixed heavy duty adhesive like Roman Adhesive Pro 880 to apply paper to the wall.

INSTANT ART
FOR ANY SURFACE™

Our exclusive and wildly popular Wall Play™ collection continues to expand. We use these little beauties every day...installing large designs for customers, creating custom wall art pieces, supplementing arrangements, and more. Here's some tips on use:

1. PLANNING

Your design will be uniquely yours. Create in a small or large area. Try several tight clusters . . . or a flowing loose arrangement.

We've found sticky notes to be useful. They are about the size of Wall Play and we can move them around until we are happy.

2. INSTALLING

In soft material, such as drywall, it is as easy as twist and go. For harder material we recommend you predrill the holes. The softer the material, the smaller the drill bit you will need. Drill your holes right through the sticky note.

3. BE CREATIVE

Wall Play is not just for vertical surfaces. You can add splashes of texture and color almost anywhere. Flow your design onto a ceiling, create a custom sculpture, customize furniture, and more. Some styles can even be used outdoors. Have fun and enjoy!

SIMPLE VS COMPLEX

Often, when referring to nature, the words "simple beauty" come to mind. But, when taken in detail, nature is actually quite complex. Think of the twisting tendrils of climbing plants, the symbiotic relationships between plants and animals, or the constant oxidation of metal. Nature is an ongoing interaction and reaction of systems. We celebrate both philosophies by adding custom details to our pieces that enhance the whole.

MODULAR ENGINEERING

We were asked to create a green wall for the reception desk of a boutique hotel. The expanse to be covered was large, and budgets were tight. Using our stock frames, we were able to create a visually interesting modular green wall that interacted nicely with the modernist environment.

DRIFT PLANTERS

Our collection of fiberglass and clay planters appear as urban modern outdoor and indoor distressed stone. The added fiberglass inside the clay gives strength and durability. We cannot control color variations. Each one will have its own distinct color and markings. Exposed air bubbles, mold lines, color blotches, and chipped edges are not defects but mimic aged stone. Protect all flooring beneath planters. Color will slightly change with age and environment. Drainage holes can easily be drilled if desired.

STAINLESS STEEL

Products must be ordered in multiples of the minimum listed in the catalog. We reserve the right to raise quantities ordered to meet product minimums. Most inventory items ship within four weeks. While we strive to have our products in stock at all times, this is not always possible. Sizes listed are approximate. Items are not necessarily shown to scale. Prices subject to change without notice.

PRICES

All prices are wholesale and are coded within the item number, making it easier to share our catalog with your clients. The price is listed following the slash of each item number (Item #/ Price).

BACKORDERS

Although we strive to keep our products in stock at all times, this is not always possible. All backorders will be shipped automatically as product becomes available. Backorders will remain open for six months after original shipment date. Customer cancellations must be received in writing and acknowledged by Gold Leaf. Without such acknowledgment, customer assumes all responsibility.

SHIPPING

Help us to serve you better. Please advise us in advance of any special delivery needs that may be required, including: lift gate, inside delivery, residential delivery or advance notification. These services incur additional charges. You are responsible for all related shipping fees, either at time of invoicing or after invoicing. See terms for a list of charges.

Crating and pallet charges will be applied to all third party and freight collect shipments. Requested shipping methods other than those determined by Gold Leaf will result in a \$20.00 service fee.

Orders requesting a drop shipment are subject to additional processing fees. Ask your Sales Representative for details.
