ROOTCANDLES.COM

Our Love Affair with the Honey Bee.

Amos Ives Root was inspired to start a beekeeping business when a swarm of bees landed on the window of his Medina jewelry store. In 1869, A.I. Root founded The A.I. Root Company where he manufactured a new beehive that, for the first time, made it possible for beekeepers to harvest their honey without harming the colony of bees. He began writing books and publishing magazines, including *The ABC of Bee Culture* and *Bee Culture Magazine*, which we continue to publish today and remain the primary sources of information to the beekeeping industry.

Root Candles remains true to its past by focusing on what we know best – beeswax. Our filled candles are made with an all-natural beeswax blend. Our fragrances contain essential oils for a long lasting, aromatic bouquet that is always true to nature. A Root candle is clean burning, long lasting, elegantly designed, and luxurious. It is a candle burning experience unlike any other.

The A.I. Root Company, founded in 1869, revolutionized beekeeping worldwide through inventions that allowed for the mass production of honey, making the city of Medina, Ohio famous as the founding place of the “Bee Industries”.

In the 1920s, Ernest and Huber Root inherited the company, creating innovations in candle-making by hand rolling strips of beeswax to prevent melting or sagging. Made of 100% beeswax, their candles were known for purity and quality, particularly by churches around the nation. The company created special safety-wicks and draft proofing to reduce the dripping of hot wax, setting new quality standards for liturgical candles used around the world. In the late 1960s, Root Candles was among the first to add color and fragrance to votive candles, now among the company’s best-sellers.

The company is currently led by the fifth generation of the Root family, Brad Root, President and Chairman of the Board. Root Candles produces approximately 20 million candles a year. Each candle is hand-crafted in America by artisans using processes mastered through five generations of craftsmanship combined with the latest in manufacturing technologies.

La Fleur Collection

Three romantic floral fragrances as sensual and elegant as their floral inspiration. Presented in soft pastel colors, each fragrance is reminiscent of tender, delicate petal blooms.

Violet

(418) Delicate floral notes of velvety violet petals blend with refreshing notes of Davana and Cassis with hints of lush greens.

Peony

(419) An aromatic bouquet of lush peonies, flowering freesia, and radiant Lily of the Valley infused with accents of sheer musk and amber highlights.

Hydrangea

(420) Sun-warmed petals of lush Hydrangea, flowering jasmine and tuberose blend with nuances of green tea and dewy greens.

PRESENTING
ELEMENTS Collection

A collection of four harmonious fragrances inspired by the four balancing elements of nature. Presented in three sizes, our new distinctively modern square glass and new scented Tealights will envelop your home with rich, bold fragrance.

WATER (417)
Tranquil notes of cool marine salts blend with glimmering sea spray and sun-warmed driftwood.

AIR (414)
Notes of clean cotton musk balance with crisp sheer linen and delicate blonde woods.

EARTH (415)
An exotic, earthy blend of dewy oakmoss, radiant vetiver, and aged cedarwood with touches of fresh woodland herbs.

FIRE (416)
An intriguing blend of smoky amber, alluring oud, and arid birch intermingle with aromatic notes of smoked embers.

Dipped Tapers

Truly reflective of Root Candle's world-renowned quality, our beeswax enhanced Dipped Taper candles are hand dipped continuously to create up to 35 individual layers of wax. The result is a satin-like finish with solid, consistently colored unscented wax throughout, creating a dinner candle that is both natural and elegant.

Filled Product Color Sequencing

Start with the first color that you carry from left to right until you fill one shelf. Your next color should go directly below the last color on the first shelf. Fill the second shelf from right to left. Again, start the third shelf directly below the last placed color on the second shelf and fill left to right. Repeat until the cabinet is filled.

Pillar & Dinner Product Color Sequencing

Slightly different from the Root Filled product to give the greatest impact for a line that is driven by color. Apply the same process, left to right on the first shelf and then begin the shelf directly below on the right and move to the left.
