C E L E B R A T I N G O U R 150 Year Love Affair with the Honeybee.

Amos Ives Root was inspired to start a beekeeping business when a swarm of bees landed on the window of his Medina jewelry store. In 1869, A.I. Root founded The A.I. Root Company where he manufactured a new beehive that, for the first time, made it possible for beekeepers to harvest their honey without harming the colony of bees. He began writing books and publishing magazines, including *The ABC of Bee Culture* and *Bee Culture Magazine*, which we continue to publish today and remain the primary sources of information to the beekeeping industry.

Root Candles remains true to its past by focusing on what we know best – beeswax. Our filled candles are made with an all-natural beeswax blend. Our fragrances contain essential oils for a long lasting, aromatic bouquet that is always true to nature. A Root candle is clean burning, long lasting, elegantly designed, and luxurious. It is a candle burning experience unlike any other.

1869

Amos Ives Root

(1839 - 1923)
founded the A.I. Root Company.

His name became synonymous with beekeeping, honey, pure beeswax, and the highest quality candles.

A.I. Root manufactured beekeeping equipment, that for the first time allowed the honey to be harvested without damaging the colony.

During the peak of our beekeeping supplies business, we shipped four freight train car loads of beekeeping equipment per day!

1970

Root started adding color and fragrance to their candles in response to the Woodstock Generation.

Root Candles introduced the method of rolling the wax to prevent the candle from bending during the warmer summer months.

1928

Root began manufacturing its own custom cotton wicks to ensure each candle burns flawlessly.

1928

Under the guidance of Huber Root, the Root Company turned to candle making at the request of a local priest looking for higher quality candles for his church. Today, Root is the largest supplier of liturgical candles to the Catholic Church in the U.S.

TODAY

Now led by the family's fifth generation, the Root family continues to extol the virtues of honesty, integrity, and diligent craftsmanship, all qualities exemplified by founding father and American original, Amos Ives Root.

1904

A.I. witnessed Orville and Wilbur Wright's first flight and wrote about it in his magazine. His article is the first recorded flight of the Wright Brothers and is currently on display in the Smithsonian.

1891

A.I. Root became a life long friend of Helen Keller when in 1891, he received a letter of thanks for his kindness and contribution towards the education of blind and deaf children.

1879

A.I. Root published *The ABC & XYZ of Bee Culture*. Currently in its 41st edition, it is often referred to as "The Beekeeper's Bible."

1920

Root Honey became known as the finest table grade honey on the market.

BREWED HONEY #339

Bright notes of bergamot and citrus with Meyer lemon highlight the notes of tea from bees that pollinate citrus groves and tea varieties. The abundance of sugar in the honey, blended with the tart lemon, leaves subtle notes of milky vanilla.

DRENCHED HONEY #342

Bees that pollinate around fresh water lakes and streams seem to deliver a fresh, green flavor from their time around lilies, water roses and tonka wood. This effervescent blend is clean, fresh and sweet.

WOODED HONEY #343

This is the lightest, most delicate and sought after of all honey blends. Bees love the Basswood tree—attracting honey bees from all around. Delicate woodsy notes and a mild flavor result in a luxurious fragrance blend.

Filled Product Color Sequencing

Start with the first color that you carry from left to right until you fill one shelf. Your next color should go directly below the last color on the first shelf. Fill the second shelf from right to left. Again, start the third shelf directly below the last placed color on the second shelf and fill left to right. Repeat until the cabinet is filled.

Pillar & Dinner Product Color Sequencing

Slightly different from the Root Filled product to give the greatest impact for a line that is driven by color. Apply the same process, left to right on the first shelf and then begin the shelf directly below on the right and move to the left.
