# Our Story

Sweet Secrets Chocolate is a boutique chocolate manufacturing company specializing in unique, fun and delicious chocolate specialties. We were underwhelmed with traditional chocolate gifts, so we decided to develop something truly fun and delicious. So with our combined skills from The French Pastry School and business school we began our chocolate business in 2008. Our innovation and attention to detail led to the development of one of the leading 'breakables' The Chocolate Pretzel Pizza! At Sweet Secrets Chocolate, each specialty item is artfully made by hand. That is one of the most important features that distinguishes us from other chocolate manufacturers. No automated chocolate processing. Each piece is finished to perfection and packaged with care and pride. By investing in people instead of machines, we can continually produce great products that look and taste amazing. We believe that details matter!
